### **DETAILED ACTION**

1. Claims 1-20 are allowed.

#### ***Drawings***

2. The drawings filed on December 15, 2003 are accepted by the Examiner.

### **REASONS FOR ALLOWANCE**

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "allocating bandwidth to a file-sharing user at a first level, wherein the first level is based upon a number of files the file-sharing user has to share; transmitting a client-side application to the file-sharing user having a shared file, the client-side application for generating metadata corresponding to the shared file" and "receiving a query from the querying user via the UI, the shared file satisfying the query based on the stored metadata; and transmitting an identification of the shared file to the querying user, wherein bandwidth is allocated to the querying user at a second level lower than a first level" as recited in independent claim 1 and similarly recited in independent claim 19.

Art Unit: 2167

As per claim 15, the prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "receiving metadata files from a plurality of file-sharing users, the metadata files corresponding to shared files, wherein bandwidth is allocated to the file-sharing users at a first level and the first level depends upon a number of files the file-sharing users have to share; storing the metadata locally at a first metadata repository to facilitate search queries from querying users received by the first metadata repository, wherein bandwidth is allocated to querying users at a second level; uploading a shared file from a file-sharing user for local storage on a metadata repository when a plurality of search requests from the shared file exceed a predetermined threshold".

The remaining claims are dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
